

Pro Re-Grip kit

Tape & Solvent for up to 50 clubs

Re-grip your clubs at home, like the pros!

Remove old grip and tape with razorblade or knife.

1. Apply tape starting at the butt end of the shaft. For 2" tape apply lengthwise for 8 – 9 inches leaving a 1/4" overhang on the butt end. Wrap the tape around the shaft and remove the backing paper. For 1/4" tape spiral wrap the tape around the shaft starting at the butt end for 8 – 9 inches leaving a 1/4" overhang at the butt end. Remove the backing paper from the tape. Fold the 1/4" overhang into the end of the shaft, closing it off.

2. Spray a small amount of HF-100 onto the grip tape.

3. Spray a small amount of HF-100 into the grip.

4. Install the grip by pushing it over the taped end of the shaft.

5. Wipe off the excess HF-100 with a dry cloth.

Playable in 15 minutes. It's that easy!
